Recovering Missing Routes

How to Recover Routes that are missing in Cheetah Web Editor

If you open Web Editor and your routes are missing

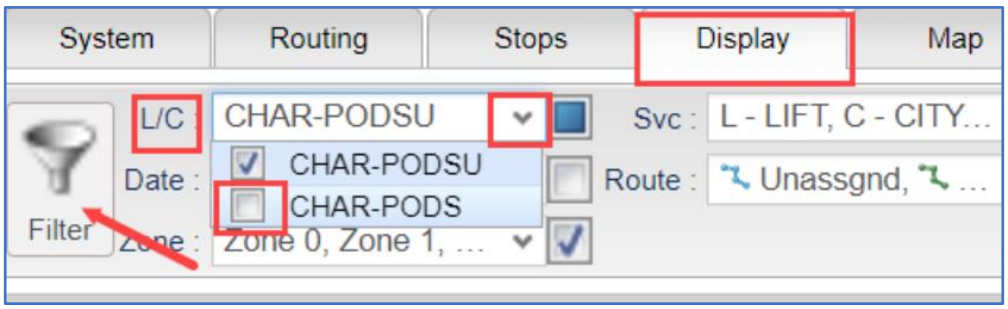

The Market-PODS has been unselected in error

Recovering Missing Routes

Steps to correct:

1. Go to Display Tab
2. Go to L/C and select the drop-down
3. Click on the Market-PODS box and a check mark will appear
4. Click on Filter

5. On your keyboard select “T” to submit
6. Your routes should have reappeared
7. If they do not, please reach out to a Cheetah SME
